

HydroPeptide Firming Moisturizer

Tightening Body Rejuvenation

Body Therapeutics

What it is: This anti-aging body cream addresses and corrects the appearance of imperfections all over the body. Scars, discoloration, stretch marks and wrinkles are less noticeable; skin appears smoother, firmer and less dimpled while hydration is replenished.

- Helps to reduce the appearance of stretch marks, scars, uneven skin tones and cellulite
- Works to firm and improve elasticity
- Reduces the appearance of age spots and discoloration
- Infuses rich hydration

Who it's for: Suitable for all skin types, especially skin with dryness, scars, stretch marks, cellulite, loss of firmness, sun damage or aging.

How to use it: Massage onto entire body daily or as needed.

Available Sizes: Retail Size 6.76 FL OZ (200 mL) | Professional Size 12 FL OZ (354.88 mL)

Key Formulated Ingredients:

Regestril™	Lifting Peptide	Shown to promote the production of collagen and other skin proteins as well as help to reduce the texture and discoloration of stretch marks.
β-White™	Brightening Peptide	Helps fight hyperpigmentation by inhibiting tyrosinase, the enzyme necessary to create pigment within the skin.
Silusyne®	Anti-Cellulite Peptide	Encourages fat cells to mature and accumulate more slowly.
Caffeine	Stimulant	Offers stimulating, anti-cellulite effect.
Hyaluronic Acid + Coconut, Sesame & Sweet Almond Oil	Humectants & Emollients	Attracts hydration to the skin and provides immediate hydration for a softer, more moisturized feel.
Ceramide III + Shea Butter	Ceramides & Occlusives	Acts as “skin glue” to help suppress transepidermal water loss and improves skin barrier function.
